Prepared on: April 15, 2024

SHERLOCK

Introduction

vVv is the easiest way to gain exposure to the complete range of digital assets, including tokenized assets, real world assets, security tokens and cryptocurrencies

Scope

Repository: vvvdevs/vvv-platform-smart-contracts

Branch: main

Commit: 7008f399a58c05832ef361dc5c54bd091d723f84

For the detailed scope, see the contest details.

Findings

Each issue has an assigned severity:

- Medium issues are security vulnerabilities that may not be directly exploitable or may require certain conditions in order to be exploited. All major issues should be addressed.

- High issues are directly exploitable security vulnerabilities that need to be fixed.

Issues found

Medium	High
0	0

Issues not fixed or acknowledged
